

Special Issue

Crop Viral Diseases: New Diagnostics and Management Options

Message from the Guest Editors

This Special Issue highlights the characterization of new crop viral diseases; highly sensitive, robust diagnostics and their application; and new management tools to mitigate viral diseases. Contributions on novel highly sensitive user-friendly diagnostic assays, high-throughput sequencing-based virome, and management using conventional and modern approaches are welcomed.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston
