

## Special Issue

# Innovation in Detection and Management of Diseases of Vegetables and Fruits

### Message from the Guest Editors

Dear colleagues, The scope of this special issue is to provide an update on innovative detection and management tools for pathogens of vegetables and fruits. Reviews and original research articles dealing with innovative strategies for the management of well-known diseases or addressing new diseases with specific protection tools fit the scope of this issue. This Issue will be released during the International Year of Plant Health (IYPH) and will help rising awareness of the importance of plant health for a sustainable development of farming systems. Integrated disease management intends to manage plant diseases by assembling innovative prevention, detection and control tools. Healthy seed or propagation material is an effective tool. Rapid diagnostic methods allow for a rational use of plant protection products. Innovative biobased products permit an environmentally sustainable approach to disease management.

### Guest Editors

Prof. Dr. Maria Lodovica Gullino

Centro di Competenza Agroinnova and DISAFA, University of Torino, 10124 Torino, TO, Italy

Prof. Dr. Davide Spadaro

Department of Agricultural, Forest and Food Sciences (DISAFA) and AGROINNOVA (Centre of Competence for the Innovation in the Agro-Environmental Sector), University of Turin, 10124 Turin, Italy

### Deadline for manuscript submissions

closed (31 March 2020)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
