

## Special Issue

# Digital Agriculture Strategies to Guide Orchard Management for Premium Quality Fruits

### Message from the Guest Editors

In today's fast-evolving agricultural landscape, the integration of digital technologies has become imperative for optimizing orchard management and ensuring the production of premium quality fruits. Digital agriculture strategies offer a multifaceted approach.

These technologies enable farmers and orchard managers to monitor crucial factors like soil moisture levels, nutrient content, pest infestations, and weather patterns in real time, facilitating proactive decision-making to enhance fruit quality and yield. Overall, the adoption of digital agriculture strategies represents a transformative shift in orchard management practices, offering sustainable solutions to meet the demands for premium quality fruits in an increasingly competitive market. In this special issue, we welcome reviews and research papers on the following topics: Digital agriculture, Robotics, Orchard management, Precision farming, Sensor technology, Data analytics, Crop monitoring, IoT, Smart farming, Fruit quality assessment, Sustainable agriculture, Yield optimization and Real time monitoring.

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
