

## Special Issue

# The Contribution of Phytobiomes for Resilient and Productive Agroecosystems

### Message from the Guest Editor

The Special Issue explores the pivotal role of phytobiomes—complex networks of plants, associated microbiomes, and environmental factors—in enhancing crop health and achieving sustainable agricultural practices. This Special Issue aims to consolidate cutting-edge research that advances our knowledge of phytobiomes, focusing on their potential to improve crop yield, disease resistance, stress tolerance, and reduce contentious inputs while maintaining crop productivity in changing climates. We are soliciting original research. Topics of interest include, but are not limited to, functional/ecological aspects of soil, root, shoot and seed microbiomes in agricultural and forestry contexts, host genetic determinants for phytobiome attributes, phytobiome manipulations, phytobiome data science and precision approaches, and the application of phytobiome knowledge in developing sustainable agricultural technologies. Studies employing novel methodologies, such as metagenomics, data-driven technologies and prediction models and advanced imaging techniques, are particularly welcome.

### Guest Editor

Dr. Pierre Hohmann

Department of Biology, Healthcare and the Environment, Faculty of Pharmacy and Food Sciences, University of Barcelona, Barcelona, Spain

### Deadline for manuscript submissions

15 September 2025

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
