

## Special Issue

# Medicinal Plants—Natural Sources of Bioactive Secondary Metabolites

### Message from the Guest Editors

The utilization of plants in the treatment of various ailments and disorders has a history as old as human antiquity. Over time, the investigation of plant constituents has led to the discovery of secondary metabolites (phytochemicals) as natural healing agents. Many natural drugs have hitherto been developed to treat various human diseases and disorders. The study of various plant-derived products is still one of the promising approaches to discover novel natural drugs.

This Special Issue covers a broad range of investigations in the field of medicinal plants and is particularly seeking submissions of original research and review articles. Manuscripts reporting the qualitative or quantitative composition of phytochemicals in medicinal plants, as well as the isolation, identification, and biological evaluation of herbal extracts, volatile oils, and plant secondary metabolites, are highly welcomed. Moreover, in addition to preclinical (in vitro and in vivo) studies, clinical trials evaluating natural products are also encouraged.

### Guest Editors

Dr. Dezső Csupor

1. Department of Pharmacognosy, Faculty of Pharmacy, University of Szeged, H-6720 Szeged, Hungary
2. Institute for Translational Medicine, Faculty of Medicine, University of Pécs, Szigeti út 12, 7624 Pécs, Hungary

Dr. Javad Mottaghipisheh

Center for Molecular Biosciences (CMBI), Institute of Pharmacy/Pharmacognosy, University of Innsbruck, Innrain 80-82, 6020 Innsbruck, Austria

### Deadline for manuscript submissions

closed (28 February 2023)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
