

Special Issue

Bioremediation and Management for Sustainable Agriculture

Message from the Guest Editors

This Special Issue will focus on phytoremediation techniques applied to toxic soil in agriculture and urban sites to recover soil fertility/quality. Advanced research, reviews, and opinion pieces covering all related areas, such as phytoremediation of contaminated agricultural and urban soils with a variety of pollutants, i.e., heavy metal ions, HCs, micro-nanoplastics, pesticides, herbicides, and fungicides, are welcome. Moreover, the guest editor and editorial board welcome papers on the use of plants, beneficial microorganisms or amendments in phytoremediation, assessments of microbial communities in contaminated soil, management approaches, modeling, and case studies from the field. Keywords: Phytoremediation; PAHs; PCBs; Phytoextraction; Phytostabilization; Metal(oid)s; Soil contamination; Fungal degradation patterns; Metagenomic approaches; Microbial degradation; Soil bioengineering approaches; Management strategies

Guest Editors

Dr. Elena Tamburini
Dr. Krishan K. Verma
Prof. Dr. Munna Singh

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
