

Special Issue

Physiological and Molecular Characterization of Crop Resistance to Abiotic Stresses

Message from the Guest Editors

Abiotic stress represents the main constraint for agriculture, affecting plant growth and productivity worldwide. Research on all topics related to abiotic stress tolerance is a priority. This Special Issue will focus on “Physiological and Molecular Characterization of Crop Resistance to Abiotic Stresses”. We are open to novel research, reviews and opinion articles covering all aspects of the responses and mechanisms of plant tolerance to abiotic stresses such as salinity, drought, extreme temperatures, flooding, nutrient deficiencies, high radiation, toxic compounds (heavy metals, pesticides), ozone, etc., Contributions on physiological, biochemical, and molecular studies of crops responses to abiotic stresses, description and role of stress-responsive genes, breeding of stress-tolerant varieties, marker-assisted screening of stress tolerant genotypes, genetic engineering and other biotechnological approaches to improve crop tolerance will be welcomed.

Guest Editors

Prof. Dr. Monica Boscaiu

Mediterranean Agroforestry Institute, Universitat Politècnica de València, Camino de Vera s/n, 46022 Valencia, Spain

Dr. Ana Fita

Departemnt of Biotechnology, Institute for Conservation & Improvement of Valentian Agrobiodiversity (COMAV), Universitat Politècnica de València, 46022 Valencia, Spain

Deadline for manuscript submissions

13 August 2025

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
