

## Special Issue

# Evolution of Weed Resistant to Herbicides: A New Challenge for Agriculture

### Message from the Guest Editors

Currently, we can observe how our fields are being invaded by weed species that compete strongly among themselves, and that, despite our attempts to control them, they unexplainably survive and adapt. This Special Issue entitled "Evolution of Weed Resistant to Herbicides: A new challenge for Agriculture" will attempt to answer the previous questions. We welcome new research, reviews, and opinion articles covering all related topics, including new herbicide formulation studies, new active ingredients as herbicides, new cross-resistant and multiple-weed populations, resistant mechanisms, effectiveness enhancers, genetics and crop improvement, management solutions, nonchemical and chemical control alternatives, field case studies, fitness cost studies, and political positions regarding the use of herbicides. Research is the only tool to address the future problems without falling into past mistakes.

### Guest Editors

Dr. Antonia María Rojano-Delgado

Department Agricultural Chemistry & Soil Sciences, University Cordoba, 14014 Cordoba, Spain

Dr. Ricardo Alcántara-de la Cruz

Centro de Ciências da Natureza, Universidade Federal de São Carlos, Campus Lagoa do Sino, Buri 18290-000, Brazil

### Deadline for manuscript submissions

closed (30 June 2021)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
