

## Special Issue

# Metagenomic Analysis for Unveiling Agricultural Microbiome—2nd Edition

### Message from the Guest Editors

The agricultural microbiome plays an important role in the nutrient absorption, disease resistance and stress resistance of crops, and it is the most important way to achieve sustainable agriculture. The purpose of this Special Issue is to promote the development of the field of agricultural microbiome; the scope of acceptance is for microbiome research related to agriculture, including crops, cash crops, oil crops, vegetables, fruits, agricultural products, animal husbandry and aquatic products. Research on amplicon sequencing is acceptable, and works on metagenome, metatranscriptome, metaproteome, metametabolome, bacterial genome, population association analysis, and multi-omics analysis are recommended, in order to more comprehensively use the meta-omics technology to analyze the role of the microbiome in agriculture, make the world a better place, and realize the harmonious development of science, technology and agriculture.

### Guest Editors

Prof. Dr. Yong-Xin Liu

State Key Laboratory of Plant Genomics, Institute of Genetics and Developmental Biology, Chinese Academy of Sciences, Beijing 100101, China

Dr. Peng Yu

Emmy Noether Group Root Functional Biology, Institute of Crop Science and Resource Conservation, University of Bonn, 53113 Bonn, Germany

### Deadline for manuscript submissions

closed (30 April 2025)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
