

Special Issue

Vegetation Ecology and Biodiversity Conservation in Agroforestry Systems

Message from the Guest Editors

This Special Issue aims to report the state of the art and disseminate recent advances in research on agroforestry systems worldwide, covering a wide diversity of systems and typologies in different environmental and socio-cultural conditions. We welcome manuscripts on different areas of research on agroforestry systems, covering aspects of structure, composition, and function, as well as vegetation ecology and biodiversity conservation, and socio-economic relevance. We invite research articles as well as reviews, mini-reviews, short communications, opinion and perspective papers dealing with, but not limited to, vegetation ecology, genetic diversity, land-use management, ecosystems services, sustainable production, plant–soil interactions, policy management, agrobiodiversity, non-timber forest products (NTFP), food and tree products, traditional and/or modern agriculture practices and economic value of agroforestry.

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
