

## Special Issue

# Pest Ecology and Biological Control in Oil and Row Crops

### Message from the Guest Editor

Historically, research on the ecology of insect species in the context of biological control has remained largely in demand, particularly when it is focused on insects of economic importance. The biological control of pests has been widely practiced since ancient times; nevertheless, more studies highlighting its importance are being conducted today. To this end, we are launching a Special Issue on pest ecology and biological control in oil and row crops. The main required article types are articles (original research manuscripts) and reviews (concise and precise updates on the latest progress made in each area of research).

### Guest Editor

Dr. José Bruno Malaquias

Entomology Laboratory, Center for Agrarian Sciences, Universidade Federal da Paraíba, Areia 58397-000, Brazil

### Deadline for manuscript submissions

15 August 2025

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
