

Special Issue

Bioactive Substances with Antioxidant Properties in Agricultural Products

Message from the Guest Editors

The papers published in this Special Issue will present the results of research in the field of biofortification of various types of horticultural crops with selected biostimulants and selenium, their impact on crops and antioxidants, and the use of essential oils of spices and medicinal plants to control decay and maintain the quality of agricultural products using their antimicrobial and antibiofilm activity and the antioxidant activity of little-known horticultural crops.

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
