

## Special Issue

# Using Biological Control Agents in Crop Protection

### Message from the Guest Editor

We invite experts and researchers in the field to contribute original research articles, reviews, short communications, and opinion pieces addressing pest- and disease-control in crops through the use of BCA. Papers on all types of pest and biotic diseases will be considered in this Special Issue. Works on minor and tropical-subtropical crops are also welcome. Specific topics of interest include biofungicides and biopesticides. Other topics of interest are semiochemicals, natural elements, essential oils, volatile organic compounds, biofungicide and biopesticide application and research methods, biofungicides and biopesticides models, and plant-BCA interactions.

### Guest Editor

Dr. Álvaro Rodríguez González

School of Agricultural and Forestry Engineering, Universidad de León,  
Portugal Avenue nº41, 24071 León, Spain

### Deadline for manuscript submissions

closed (30 September 2021)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
