

## Special Issue

# Addressing Abiotic Stress Responses in Plants: Emerging Biotechniques from Laboratory to the Field

### Message from the Guest Editor

Original research, methods, reviews, mini-reviews, and opinion articles related to, but not exclusively limited to, the following topics below are welcome for submission.

- Understanding the molecular bases of interaction among stresses, including physiological and biochemical expressions and systems biology approaches;
- Establishment of experimental conditions that mimic field conditions exhibiting one, combinations of or multiple abiotic stresses;
- Detection of processes and/or transductions of abiotic stress signals of plants as whole plant, its parts or at gene level;
- Identification of key factors connecting abiotic stress responses and developmental processes;
- Analyses of long-term studies on plant responses under a combination of or multiple abiotic stress field conditions;
- Ecogeographic studies of genetic diversity of plants correlation to abiotic stress conditions.

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
