

Special Issue

Fruits Crops Improvements in View of Marker Development, Genetic Diversity, Population Structure Traits Tagging and GWAS

Message from the Guest Editor

This Special Issue opens the door for the fruit crops research community to share their up-to-date progress, and inventions in the fields of genetic diversity, molecular breeding, population genetics, bio-informatics and conservation genetics. Original research articles and concepts for review articles to address major issues are welcome.

Guest Editor

Dr. Manosh Biswas

Department of Genetics and Genome Biology, College of Life Sciences, University of Leicester, Leicester, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
