Special Issue

Good Agricultural Management to Higher Nutrient Use Efficiency

Message from the Guest Editor

This Special Issue will focus on "Good agricultural management, a tool to higher nutrient use efficiency". We welcome novel research, reviews and opinion pieces covering all related topics included in the different types of agricultural systems, nutrient management in conventional and organic crop production, N and P cycling, soil dynamics in different environments and climates, related air and water quality mitigation and barriers to good management, innovative solutions, modelling, case-studies and policy positions.

Guest Editor

Prof. Dr. Cláudia Marques dos Santos Cordovil CEF, Instituto Superior de Agronomia, Universidade de Lisboa, Tapada da Ajuda, 1349-017 Lisboa, Portugal

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research, Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
