

Special Issue

Irrigation Strategies and Soil Management in Orchards

Message from the Guest Editors

This Special Issue focuses on "Irrigation Strategies and Soil Management in Orchards", which is important for promoting a rapid exchange of research results, experience, and ideas within the scientific community and among professionals working in this stimulating and relevant research field, both from an agronomic and an economic perspective. Besides the specific scientific target, we would like to transfer updated and practically relevant results to farmers, SMEs, policy makers, and related end-users working on fruit production. Research on the impact of water and soil management on climate-change mitigation, soil-nutrients optimization, and soil physico-chemical and biological fertility will be welcome. Through an innovative multidisciplinary approach, region-specific water and land management practices for orchards will be proposed. On this basis, we feel confident that the contribution of many authors working on various aspects of water and soil resources in orchards will allow us to achieve all these aims.

Guest Editors

Prof. Dr. Bartolomeo Dichio

Department of European and Mediterranean Cultures: Architecture, Environment and Cultural Heritage (DiCEM), Università degli Studi della Basilicata, Via S. Rocco, 3-75100 Matera, Italy

Dr. Adriano Sofo

Department of Agricultural, Forestry, Food and Environmental Sciences (DAFE), Università degli Studi della Basilicata, Viale dell'Ateneo Lucano 20, 85100 Potenza, Italy

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
