

Special Issue

Cultivated Ornamental Plants: Breeding Aspects

Message from the Guest Editors

This Special Issue invites original research, technology reports, methods, and reviews describing various aspects of ornamental plant breeding including (1) genetic diversity of ornamentals; (2) the development of new cultivars; (3) classical and molecular breeding; (4) breeding for specific traits; (5) breeding techniques including in vitro, mitotic, and meiotic polyploidization, genetic modification, etc. In addition, manuscripts on flower cytology and cytogenetics will be considered within the general scope of this Special Issue. Your experience, results, and knowledge can help to understand and improve modern ornamental plant breeding, which is key to progress in ornamental horticulture.

Guest Editors

Dr. Agnieszka Marasek-Ciolakowska

Department of Applied Biology, Research Institute of Horticulture,
Konstytucji 3 Maja 1/3, 96-100 Skierniewice, Poland

Dr. Dariusz Sochacki

Institute of Horticultural Sciences, Section of Ornamental Plants,
Warsaw University of Life Sciences–SGGW, Nowoursynowska 166, 02-
787 Warsaw, Poland

Deadline for manuscript submissions

closed (12 November 2021)

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
