

Special Issue

Plant-Microbe Interactions for Yield Improvement: From Greenhouse to the Field

Message from the Guest Editor

In this Special Issue, we welcome papers focused on the following:

- Papers describing novel applications of PGPR, mycorrhizal fungi or other biostimulants on crops under optimal or stress conditions;
- Papers describing the molecular mechanism of action of PGPR, mycorrhizal fungi or other biostimulants on crops under optimal or stress condition;
- Papers describing field trials in which PGPR, mycorrhizal fungi or other biostimulants have been used;
- Papers describing novel genotypes of PGPR or mycorrhizal fungi;
- Papers describing novel organisms with plant-growth-promoting activity;
- Metabolomic, proteomic or genomic studies on PGPR or mycorrhizal fungi.
- Novel biostimulants.

Guest Editor

Dr. Rosa Porcel

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
