

Special Issue

Recent Progress in Plant Taxonomy and Floristic Studies

Message from the Guest Editors

The aim and scope of the Special Issue cover scientific articles from different areas of systematics and taxonomy, including classical taxonomy- and modern phylogenetics-based progress in the field. This also covers biodiversity and evolution, and floristics studies from different geographical areas. Papers in any of the following and related fields will be considered for this Special Issue: Taxonomy, floristic studies, biosystematics, classical taxonomy, and modern taxonomic advances, phylogenomics, phylogenetics and biogeography, including phylogeography, and the description of well documented new taxonomic taxa, monographs, taxonomic revisions. It incorporates data from classical morphology (including both macro and micro morphology), molecular study, anatomy and ecology, distribution, molecular evolution, evolutionary development, population biology, conservation biology, evolutionary ecology, paleobiology, and related methods and theories in recent development in systematics and floristic studies.

Guest Editors

Prof. Dr. Alessio Papini

Prof. Dr. Mushtaq Ahmad

Dr. Fazal Ullah

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
