

Special Issue

Integrated Management of Crop Residues and Their Bioactive Properties in Agri-Food Production

Message from the Guest Editors

For this Special Issue, authors are encouraged to contribute with research and review articles covering current and innovative strategies for sustainable farming systems, improving soil quality and nutrition and its productivity. The issue will also consider research on the bioactive properties of this biomass applied to crop protection and food or food ingredients development.

Keywords

- crop residues
- sustainable management
- agricultural practices
- soil/crop protection
- bioactive compounds
- product development

Guest Editors

Dr. Carla Susana Correia Pereira

Dr. José Pinela

Dr. Maria Inês Moreira Figueiredo Dias

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
