

## Special Issue

# Discovery and Utilization of Germplasm Resources in Rice

### Message from the Guest Editors

Rice is a major food crop for over half of the world's population, its yield having experienced two quantum leaps benefitting from the introduction of semidwarf varieties and the utilization of heterosis. As a model cereal crop, the complete genome sequence of rice laid the foundation for functional genomics research and breeding. Recent advances in quantitative trait loci (QTLs), genome-wide association studies (GWAS), CRISPR gene editing, and transgenic analysis have facilitated the identification and functional analysis of important genes from rice germplasm resources. This Special Issue, concerning the "Discovery and Utilization of Germplasm Resources in Rice", aims to focus on progress related to the identification and evaluation of germplasm resources, creation of novel germplasms based on the genetic effect of important QTLs/genes, utilization of germplasms for gene cloning, and breeding novel varieties for rice production.

### Guest Editors

Dr. Yue Feng

State Key Laboratory of Rice Biology, China National Rice Research Institute, Hangzhou 310006, China

Dr. Xiaodeng Zhan

China National Center for Rice Improvement and State Key Laboratory of Rice Biology and Breeding, China National Rice Research Institute, Hangzhou 311400, China

### Deadline for manuscript submissions

closed (31 May 2023)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
