

## Special Issue

# Precision Farming at the Service of Transition: How to Reduce Drastically and Effectively Agrochemicals Use in Farms? Enhancing Smart and Sustainable Farming Systems

### Message from the Guest Editors

I hereby invite you to contribute to this Special Issue titled "**Precision farming at the service of transition: how to reduce drastically and effectively agrochemicals use in farms?**" Enhancing smart and sustainable farming systems" in the MDPI journal *Agronomy*. "Precision farming at the service of transition" thus aims to promote and encourage scientific debates and the sharing of experiences around various themes, including recent scientific and technological research in precision agriculture, the challenges in adopting precision agriculture technologies, the use and valuation of increasingly diverse agricultural data in a digital world, the challenges linked to a rapid transition towards sustainable digital/precision agriculture, etc. Without a doubt, these subjects will make it possible to "take the pulse" of the participants on these current issues in real time, and promote a sustainable and environmentally friendly agriculture under a changing climate.

### Guest Editors

Dr. Moussa El Jarroudi

SPHERES Research Unit, Department of Environmental Sciences and Management, University of Liège, Arlon, Belgium

Dr. Louis Kouadio

Centre for Applied Climate Sciences, Institute for Life Sciences and the Environment, University of Southern Queensland, Toowoomba, QLD 4350, Australia

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
