

Special Issue

Weed Management & Sustainable Agriculture

Message from the Guest Editors

The sustainability of agriculture can be based on an integrated crop and weed management approach. Consequently, further research is required to improve weed management and evaluate new and more ecologically friendly approaches. For this Special Issue, we invite you to share your studies on weed research. In particular, we are seeking submissions on the following topics: 1) mechanical weed control; 2) non-chemical weed control; 3) ecologically based methods; 4) precision weed control; 5) herbicide-resistant crops and weeds; 6) biological weed control; and 7) integrated weed management. Other aspects of weed research outside these topics are also of interest.

Guest Editors

Dr. Ilias Travlos

Faculty of Crop Science, Agricultural University of Athens, 118 55 Athens, Greece

Dr. Nicholas Korres

Department of Crop, Soil, and Environmental Sciences, University of Arkansas, Fayetteville, AR, USA

Dr. Rafael De Prado

University of Cordoba, Spain

Deadline for manuscript submissions

closed (31 January 2021)

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Agronomy and Crop Science)
