

Special Issue

Advancements in Metrology for Air Pollution Research: New Methods, Instrumentation, and Methodological Perspectives

Message from the Guest Editors

Air pollution research continues to be a critical field, pivotal in our understanding of environmental challenges and public health concerns. This Special Issue is dedicated to exploring metrology problems in air pollution research, emphasizing the adoption of cutting-edge methods, the evolution of instrumentation, and the broader methodological perspectives that enhance the precision and reliability of air quality measurements. Topics of Interest:

- Metrological Analysis of Weight Measurement Systems
- High-Resolution Analysis of Risk for Weight and Moisture Measurement
- Validation Processes for Air Pollution Measurements
- Mass and Moisture Measurement Techniques
- Operational Procedures Associated with Mass Measurements in Air Pollution Research
- PM Size Fractionation Instrumentation—Challenges and Perspectives
- High-Resolution Data in Air Pollution Research

This Special Issue welcomes contributions from researchers, scientists, and professionals in the field of air pollution research who are actively engaged in addressing metrology challenges and advancing the precision and reliability of air quality measurements.

Guest Editors

Dr. Kamila Widziewicz-Rzońca

Dr. Patrycja Rogula-Kopiec

Dr. Jan Stefan Bihałowicz

Deadline for manuscript submissions

closed (30 October 2024)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Ling Tim Wong

Department of Building Environment and Energy Engineering, The Hong Kong Polytechnic University, Hong Kong, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 12.2 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
