Deadline for manuscript
submissions:

closed (20 October 2020)

Message from the Guest Editors

This Special Issue pursues both novel metaheuristic algorithms and the application of existing metaheuristic approaches in engineering problems. Since abundant literature can be found in some engineering areas, both surveys and literature reviews are welcome.

The possible topics of interest include but are not limited to the following areas:

- Genetic Algorithm (GA) for engineering optimization problems;
- Swarm Optimization Algorithms (PSO, Firefly, Ant Colony, etc.) for engineering optimization problems;
- Bio-inspired optimization algorithms for engineering optimization problems;
- Genetic programming for engineering optimization problems;
- Evolutionary strategies for engineering optimization problems;
- Multiobjective optimization for engineering optimization problems;
- Evolutionary algorithms based on surrogate models for engineering optimization problems;
- Hybrid metaheuristic algorithms for engineering optimization problems;
- Parallel metaheuristic algorithms for engineering optimization problems.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-
von-Guericke-University, P.O. Box
4120, D-39016 Magdeburg,
Germany

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: Indexed in the Emerging Sources Citation Index (ESCI - Web of Science), Ei Compendex, Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2020).
