Message from the Guest Editors

Dear Colleagues,

We are pleased to announce a new Special Issue to promote our new section Evolutionary Algorithms and Machine Learning, which will mainly focus on either selected areas of research or special techniques.

Manuscripts for this Special Issue will be accepted by the editorial office, Editor-in-Chief, and editorial board members by invitation only. All the papers in this Special Issue will be published free of charge.

Prof. Dr. Akemi Galvez Tomida

Dr. Amir Mosavi

Dr. Andres Iglesias

Guest Editors

Deadline for manuscript
submissions:

31 December 2020

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-
von-Guericke-University, P.O. Box
4120, D-39016 Magdeburg,
Germany

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: Indexed in the Emerging Sources Citation Index (ESCI - Web of Science), Ei Compendex, Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2020).
