

Special Issue

Machine Learning for Pattern Recognition (3rd Edition)

Message from the Guest Editors

In the field of artificial intelligence, machine learning is a well-known framework utilized for pattern recognition. Machine learning has led to significant advances in the field of pattern recognition due to the big data revolution and the development of parallel processing units. Pattern recognition has been widely employed in various real-world applications, such as face detection/recognition, facial expression recognition, medical image analysis/recognition, gesture recognition, behavioral recognition, and advanced driver assistance systems (ADASs). This Special Issue aims to provide a platform for the presentation of high-quality research regarding novel theories, algorithms, ideas, and applications in the above areas.

Guest Editors

Prof. Dr. Chih-Lung Lin

Prof. Dr. Bor-Jiunn Hwang

Prof. Dr. Shaou-Gang Miaou

Dr. Chi-Hung Chuang

Deadline for manuscript submissions

31 January 2026

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
