

Special Issue

Artificial Intelligence Algorithms for Healthcare

Message from the Guest Editors

We invite you to submit your latest research in the area of the development of data-driven healthcare to this Special Issue “Artificial Intelligence Algorithms for Healthcare”. The use of artificial intelligence methods and tools in healthcare is an important modern trend in science. Artificial intelligence technologies are changing the global healthcare system, allowing to improve the system of medical diagnostics, drug development, medical data analysis, and medical decision making, as well as improve the quality of healthcare services while reducing costs for medical institutions. This Special Issue will include original theoretical and empirical studies and reviews in the field of machine learning, data mining, modeling, information technologies, and artificial intelligence in the context of healthcare. The purpose of this special issue is to educate the community about unique and new research related to the application of artificial intelligence methods and tools to various aspects of healthcare and medical research.

Guest Editors

Dr. Dmytro Chumachenko

Mathematical Modeling and Artificial Intelligence, National Aerospace University “Kharkiv Aviation Institute”, 61101 Kharkiv, Ukraine

Prof. Dr. Sergiy Yakovlev

Institute of Information Technology, Lodz University of Technology, 90-924 Lodz, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
