

Special Issue

2024 and 2025 Selected Papers from Algorithms Editorial Board Members

Message from the Guest Editor

I am pleased to announce the fourth edition of a Special Issue in *Algorithms* that is quite different from our typical Special Issues and will mainly focus on either selected areas of research or special techniques. Being creative in many ways, with this Special Issue, *Algorithms* is compiling a collection of papers submitted exclusively by its Editorial Board Members (EBMs) covering different areas of algorithms and their applications. The main idea behind this Special Issue is to turn the tables and allow our readers to be the judges of our board members.

Guest Editor

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, D-39016 Magdeburg, Germany

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Algorithms are the core of computational mathematics and computer science. The whole area has been considered from different perspectives, which has led to the development of several sub-communities. The aim is to bring together researchers and practitioners from different areas of computational mathematics and computer science and to offer a platform for interdisciplinary applications in different areas of science and technology. In this way, *Algorithms* may become a forum for the exchange of new stimulating ideas between the different sub-communities working in the area of algorithms and their applications and the presentation of high-quality novel algorithmic approaches.

Editor-in-Chief

Prof. Dr. Frank Werner

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Computational Mathematics)
