Special Issue

Algorithms in Computational Finance

Message from the Guest Editors

This Special Issue aims to attract submissions that report state-of-the-art research in algorithms in computational finance. The scope of this Special Issue is broad. We welcome submission in, but not limited to, the following topics:

- Forecasting algorithms
- Trading algorithms
- Portfolio optimisation algorithms
- Algorithms for analysing financial data
- Algorithms for market analysis, e.g., for early warning systems
- Machine learning applications in finance

Prof. Dr. Edward Tsang

Guest Editors

Prof. Dr. Edward Tsang
School of Computer Science and Electronic Engineering, the University of Essex, Wivenhoe Park, Colchester CO4 3SQ, UK

Dr. V L Raju Chinthalapati
Department of Accounting & Finance, Business School, The University of Greenwich, London SE10 9LS, UK

Deadline for manuscript submissions

closed (15 September 2018)

About the Journal

Message from the Editor-in-Chief

Algorithms are the core of computational mathematics and computer science. The whole area has been considered from different perspectives, which has led to the development of several sub-communities. The aim is to bring together researchers and practitioners from different areas of computational mathematics and computer science and to offer a platform for interdisciplinary applications in different areas of science and technology. In this way, *Algorithms* may become a forum for the exchange of new stimulating ideas between the different sub-communities working in the area of algorithms and their applications and the presentation of high-quality novel algorithmic approaches.

Editor-in-Chief

Prof. Dr. Frank Werner
Faculty of Mathematics, Otto-von-Guericke-University Magdeburg, P.O. Box 4120, D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) / CiteScore - Q1 (Numerical Analysis)
