

Special Issue

Algorithms for Large-Scale Data Integration

Message from the Guest Editor

We invite you to submit high-quality papers to this Special Issue on “Algorithms for Large-scale Data Integration”, with subjects ranging from theoretical models to emerging applications. Possible topics of interest include but are not limited to the following:

- New algorithms for data integration;
- Machine learning for scalable data analysis;
- Advanced data cleaning techniques;
- Semantic data integration models;
- Distributed integration platforms;
- Large-scale integrative analysis.

Guest Editor

Dr. Haiying Wang

School of Computing, Jordanstown campus, Ulster University, Room 16E15, Shore Road, Newtownabbey, Co., Antrim BT37 0QB, UK

Deadline for manuscript submissions

closed (26 September 2021)

About the Journal

Message from the Editor-in-Chief

Algorithms are the core of computational mathematics and computer science. The whole area has been considered from different perspectives, which has led to the development of several sub-communities. The aim is to bring together researchers and practitioners from different areas of computational mathematics and computer science and to offer a platform for interdisciplinary applications in different areas of science and technology. In this way, *Algorithms* may become a forum for the exchange of new stimulating ideas between the different sub-communities working in the area of algorithms and their applications and the presentation of high-quality novel algorithmic approaches.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University Magdeburg, P.O.
Box 4120, D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
