

Special Issue

Artificial Intelligence-Based Algorithms in Wireless Sensor Networks

Message from the Guest Editor

The main focus of this Special Issue strives for a deeper understanding of AI-based algorithms and theories which are developed to build up WSNs.

- wireless sensor networks
- AI-based algorithms including machine learning, genetic algorithms, clustering, decision trees, support vector machines, k-nearest neighbor, neural networks, fuzzy theory for wireless sensor networks
- AI-based data structures for wireless sensor networks
- AI-based protocols for wireless sensor networks
- AI-based mathematic models for wireless sensor networks
- AI-based optimization problems for wireless sensor networks
- AI-based performance evaluation for wireless sensor networks
- AI-based system design for wireless sensor networks
- AI-based simulation tools for wireless sensor networks

Guest Editor

Prof. Dr. Chang Wu Yu

Department of Computer Science and Information Engineering, Chung Hua University, Hsinchu City 300, Taiwan

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
