

Special Issue

Selected Papers from DLT 2023 and Words 2023

Message from the Guest Editors

This Special Issue will mainly consist of extended papers selected from papers presented at the 27th International Conference on Developments in Language Theory (DLT 2023) as well as the 14th International Conference on Words (WORDS 2023). Please visit the conference websites for a detailed description: <https://dltwords2023.cs.umu.se/>

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.
