

Special Issue

Selected Algorithmic Papers From FCT 2023

Message from the Guest Editors

The 24th International Symposium on the Fundamentals of Computation Theory (**FCT 2023**) is an annual international conference held in Germany that is designed to cover a broad range of topics related to Theoretical Computer Science. We will welcome and invite selected papers with a clear algorithmic nature whose abstracts have been submitted to the conference. We will base our invitations on the reviews received for these abstracts and the impression of the presentation at the conference.

Guest Editors

Prof. Dr. Henning Fernau

Informatikwissenschaften, Fachbereich 4, Universität Trier,
Universitätsring 15, 54296 Trier, Germany

Prof. Dr. Klaus Jansen

Department of Computer Science, Kiel University, Christian-Albrechts-
Platz 4, 24118 Kiel, Germany

Deadline for manuscript submissions

closed (31 January 2024)

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
