

Special Issue

Mathematical Models and Their Applications III

Message from the Guest Editors

The Special Issue will cover a broad range of research topics, including but not limited to:

- Mathematical models and their applications;
- Mathematical modeling techniques;
- Optimization techniques, including multicriterion optimization and decision-making support;
- Data mining and knowledge discovery;
- Machine learning;
- Pattern recognition;
- Learning in evolutionary algorithms;
- Genetic programming;
- Artificial neural networks;
- Computational intelligence and its applications;
- Bio-inspired and swarm intelligence;
- Text/web/data mining;
- Human-computer interaction;
- Natural language processing;
- Applications in engineering, natural sciences, social sciences, and computer science.

Guest Editors

Prof. Dr. Eugene Semenko

Prof. Dr. Todor Ganchev

Prof. Dr. Predrag S. Stanimirović

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
