

Special Issue

Data Compression, Communication Processing and Security 2016

Message from the Guest Editor

There is a strict relationship that links data compression, data communication, data processing and data security. This is testified by the growing interest for efficient compression, communication and processing techniques that the new media are demanding and by the increasing demand of data security. This Special Issue is devoted to the exploitation of the many facets of this relationship, and explores the current state-of-the-art of research in compression, communication and security. The topics of interest to this Special Issue covers the scope of the CCPS 2016 Conference (http://ccps2016.di.unisa.it/CCPS_2016/Home.html). Extended versions of papers presented at CCPS_2016 are sought, but this call for papers is fully open to all who want to contribute by submitting a relevant research manuscript.

Guest Editor

Dr. Bruno Carpentieri

About the Journal

Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

Editor-in-Chief

Prof. Dr. Frank Werner

Faculty of Mathematics, Otto-von-Guericke-University, P.O. Box 4120,
D-39016 Magdeburg, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Theory and Methods) /
CiteScore - Q1 (Numerical Analysis)
