

Special Issue

Oral and Maxillofacial Anatomy

Message from the Guest Editor

It is my pleasure to invite you to contribute to the Special Issue entitled "Oral and Maxillofacial Anatomy". The complex anatomy and embryology of the oral cavity and the stomatognathic system are of great interest not only in dentistry and oral surgery, but also in related fields such as forensic medicine, ENT, pediatrics, anthropology, and evolutionary biology. This Special Issue aims to bring together experts conducting research, especially in clinical and macroscopic anatomy. Authors conducting studies on these topics are welcome to submit original research articles, reviews, short communications, and case reports on anatomical variations.

Guest Editor

Prof. Dr. Sven Schumann
Department of Anatomy, Brandenburg Medical School Theodor Fontane, Brandenburg an der Havel, Germany

Deadline for manuscript submissions

30 June 2026
