## Coccidiosis in Poultry: Current Thinking on *Eimeria* spp., Host–Parasite Relationships, and Potential for Advancements in Control

Guest Editor:

**Dr. Kenneth Bafundo**

Phibro Animal Health  
Corporation, Teaneck, NJ 07666,  
USA (Retired)

Deadline for manuscript  
submissions:

**30 June 2024**

### Message from the Guest Editor

Infection with Eimerian parasites remains one of the most significant production issues faced by the global poultry industry. In addition to the direct costs associated with increased mortality, insufficient weigh gains and poorly utilized feed, coccidial infection serves as a predisposing factor for important bacterial infections, allowing them to further compromise the well-being of commercial flocks. It is not surprising that the global costs of coccidial infections approach USD 15 billion annually.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
