submissions:

closed (30 June 2023)

Message from the Guest Editor

Coagulation disorders in dogs and cats are associated with high morbidity and mortality. Identification of some coagulation abnormalities such as hyperfibrinolysis or thromboembolism is challenging despite the availability of viscoelastic coagulation testing, and the pathophysiology of many coagulopathies is still mainly unknown or extrapolated from studies in people.

Further research for straightforward diagnosis, identification of pathomechanisms, and appropriate treatment is needed for the successful management of coagulopathies in dogs and cats. Interaction with each other, sharing of experiences, and publication in a timely manner play a crucial role in achieving these goals. With the Special Issue “Coagulopathies in Dogs and Cats: Diagnosis, Pathomechanisms, and Treatment”, we invite you to submit studies prospectively or retrospectively investigating any objective regarding coagulopathies in dogs and cats. The aim of this Special Issue is to collate a body of work on the subject of coagulopathies in companion animals and to demonstrate and share current standards and new insights as well as future solutions of this important hemostatic abnormality.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
