Message from the Guest Editor

Dear Colleagues,

You are invited to submit papers to the Special Issue "General Epidemiology of Animal Viruses." Viruses have accompanied humans and animals since the dawn of time and will likely continue to do so until the end of it. The recent COVID-19 pandemic showed once again that animal viruses are extremely dangerous to human populations, with widespread consequences. This Special Issue invites articles on the general epidemiology of different animal viruses, with topics of interest including: molecular epidemiology and evolution, including the development of novel bioinformatics tools or approaches to advance knowledge around virus ecology and diversity; virus structure and function; virus–host interaction; and the severe implications of viruses across the world.

I hope to assemble a series of research articles, reviews, perspectives and summary opinions that reflect the full diversity of the field, highlighting current and future trends in basic and applied research.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
