Camerino, Camerino, Italy

Deadline for manuscript  
submissions:

**closed (30 September 2022)**

### Message from the Guest Editors

Dear Colleagues,

Polycyclic aromatic hydrocarbons (PAHs), polychlorinated biphenyls (PCBs), organochlorine pesticides (OCPs), polybrominated diphenyl ethers (PBDEs), and the newly recognized emerging persistent organic pollutants (POPs) can bioaccumulate and biomagnify throughout the marine food web. Alarming levels of POPs have recently been found in all species of sea turtles, demonstrating that these pollutants are a real threat to sea turtle conservation. Despite the growing body of evidence of the impact of POPs, especially the emerging ones, on marine ecosystem health, further environmental monitoring and ecotoxicological studies are required to integrate baseline data and address the long-term effects on various signaling pathways in sea turtles. This Special Issue welcomes original studies that will contribute to a better understanding of the POP bioaccumulation trends in sea turtle tissues and to develop new biomarkers to measure adverse health effects. This knowledge will be useful for improving sea turtle conservation strategies.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
