Deadline for manuscript submissions:

closed (31 December 2021)

Message from the Guest Editors

Mastitis, defined as an inflammation of the mammary gland caused by different types of pathogens, is the most economically important disease of dairy cows and small ruminants. It affects the milk quality and hygiene and represents a welfare problem for the affected animals. Management such as the type of farming, dry period procedures, bedding and milking routine could play a critical role in udder health due to an increased risk of intra-mammary infections. On the other hand, the population of microorganisms present in milk reflects both the health status of the udder as well as the whole environment and management of the farm.

This Special Issue aims to illuminate the current integrative research concerning the epidemiology, management practices, welfare, microbiologic and clinical features of mastitis and milk hygiene.

Articles highlighting and documenting any aspect of mastitis diagnosis, prevention and control as well manuscripts describing the effect of the environment and management on milk quality for ruminants and for other animals are welcome and will be taken into consideration for the publication.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in ‘Agriculture, Dairy & Animal Science’; 16/167 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
