Florida International University,  
Miami, FL 33199, USA

**Dr. George Olah**

Fenner School of Environment  
and Society, Australian National  
University, Canberra, Australia

Deadline for manuscript  
submissions:

**closed (30 November 2021)**

### Message from the Guest Editors

The poaching of wildlife for profit, pleasure, subsistence, or as a result of human–animal conflict has decimated wildlife populations—particularly those of at-risk species. Given the ease of poaching wildlife throughout the world and the significant demand for specific species and their derivatives, wildlife trafficking is among the most profitable illicit transnational industries (Moreto and Pires, 2018). Despite technological advancements to detect and prevent poaching and trafficking, current approaches to curb the trade have had limited success and are not working. This Special Issue has a broad objective of soliciting empirical research on the nature of the illegal wildlife trade; novel solutions to track, prove, and prevent wildlife crime; and evaluative research on enacted legislation or interventions that have the potential to be replicated in other contexts. Altogether, this volume of work is an effort to significantly contribute to our understanding of how the illicit trade operates and provide viable solutions to mitigate threats to protected wildlife.

## Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
