Message from the Guest Editor

Dear Colleagues,

As the world population is expected to reach 9.6 billion by 2050, there is an urgent need for sustainable protein production with a limited environmental impact. As a substantial contribution to our food supplies, the reproductive biology of fish remains a hot topic in the current research field. We are glad to announce that we are opening a new Special Issue: *Advances in Fish Reproduction* to provide international, peer-reviewed articles services for scientists engaged in all aspects of fish reproduction.

This Special Issue will focus on recent advances on various reproductive phenomena in fish, including reproductive physiology, endocrinology, embryology, and sex differentiation etc. Research articles, review articles as well as short communications are welcomed.

Dr. Han Kyu Lim

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
