Deadline for manuscript submissions:

closed (30 November 2020)

Message from the Guest Editor

Mammal trapping is an important aspect of wildlife research and management. During the last few decades, extensive development programs on the humaneness of killing and restraining trapping devices and the pertinence of trapping in conservation programs have been carried out. However, in recent years, new scientific research and reviews question the adequacy of current humane trapping standards, the selectivity of traps, the impact of trapping on biodiversity, the sustainability of wildlife communities, and the use of trapping to resolve recurring human-wildlife conflicts. Mammal trapping may impact on animal welfare and wildlife conservation programs.

Manuscripts that address issues associated with mammal trapping, fur management, pest control, and wildlife conservation are invited for this Special Issue, particularly: (1) assess international standards relative to the humaneness, capture-efficiency, and selectivity of killing and restraining traps and snares; (2) assess the impacts of trapping on the welfare of individuals and the sustainability of wildlife communities; (3) identify and quantify welfare impacts that have not previously been recognized.

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
