

Special Issue

Anaesthesia and Analgesia in Companion Animals

Message from the Guest Editors

New strategies regarding veterinary anaesthesia and analgesia are constantly being developed, and the best scientific research is being promoted. The pillar of this practice is evidence-based veterinary medicine (EBVM), which is mainly reflected in peer-reviewed published work. The openness of this work, its widespread dissemination and public criticism further enhance the quality of this scientific effort. This practice, which is targeted not only for the sake of science, but also for the practical benefit of animals and animal carers—regarding the ethical protection and welfare of both—is at the heart of the science, and it stands as the cornerstone of the modern world of reasoning. We cordially invite you to join us on a journey onboard of this Special Issue of *Animals*, and we hope you enjoy this trip to knowledge through uncharted waters.

Guest Editors

Prof. Dr. Ioannis Savvas

Dr. Tilemahos Anagnostou

Dr. George M. Kazakos

Dr. Kiriaki Pavlidou

Prof. Dr. Dimitris Raptopoulos

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips
