Special Issue

Mitigating Heat Stress in Ruminants: Physiological Impacts and Nutritional Strategies

Message from the Guest Editor

Environmental factors, such as heat stress, have a significant impact on animal productivity. Elevated temperatures and humidity beyond thermal neutral zone negatively affect growth, lactation, and reproduction performance in ruminants, causing economic losses in both the dairy and beef industries. Nutritional modifications have been developed to mitigate the effects of heat stress, and dietary adjustments can also benefit the environment by reducing nitrogen excretion from ruminants. The scope of the current Special Issue focuses on the utilization of nutrients and feed additives to modify physiological status and mitigate heat stress in ruminants during the summer season. We invite you to submit original research papers and review articles to expand our knowledge on the nutritional strategies for mitigating heat stress in ruminants.

About the Journal

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. Animals adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. Animals is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

Editor-in-Chief

Prof. Dr. Clive J. C. Phillips

Institute of Veterinary Medicine and Animal Sciences, Estonian University of Life Sciences, Kreutzwaldi 1, 51014 Tartu, Estonia
 Curtin University Sustainability Policy (CUSP) Institute, Kent St., Bentley 6102, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
