

## Special Issue

# Veterinary Nursing in Small Animal Medicine

### Message from the Guest Editors

Veterinary nurses play an invaluable role in the care of small animal patients all over the world. These highly motivated professionals are entrusted with very diverse responsibilities that contribute to the maintenance of animal health and their recovery from a wide variety of medical conditions. Small animal medicine would not exist without the contributions of veterinary nurses and their contribution to the veterinary team. This edition will highlight the many ways veterinary nurses contribute to small animal health, celebrate their accomplishments, identify research studies highlighting the role of veterinary nurses, identify unique challenges, and provide an outlook of future career growth and opportunities.
