

## Special Issue

# Innovative Production Strategies for High-Quality, Traditional Pig Products—2nd Edition

### Message from the Guest Editors

In some European countries, part of the pig sector is aimed at producing traditional and certified products (e.g., PDO—Protected Designation of Origin, PGI—Protected Geographical Indication). However, typical pork products are produced in many countries worldwide. The meat used for producing these high-quality delicacies needs to be suitable for seasoning and dry-curing, which is the result of complex interactions between the animal (breed, genotype, rearing condition, feeding, age and weight at slaughter, etc.) and the environment, including also ethical attributes such as animal welfare and environmental impact. This Special Issue focuses on innovative (or alternative) production strategies for pigs intended for high-quality, typical productions (higher sustainability including social implications, improvements of animal welfare, innovative feeding and farming techniques, reduction in environmental impact, reduction in drugs use, use of new additives, improvement in meat and fat quality, etc.), with special emphasis on PDOs, PGIs, and other recognized production schemes, and it is aimed at providing new insights for a wide range of stakeholders worldwide.

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2024, ranks 15/86 (Q1) in 'Agriculture, Dairy & Animal Science'; 21/170 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.2.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary )
